

NEW MAVERICK . . . John Naughton, Ford Motor Co. vice president and Ford Division general manager, stands with the 1970 Maverick, Ford's answer to the booming imported economy car market. The car is the Ford Division's first all new car since the Mustang was introduced. Maverick averages 22.5 miles per gallon from its six-cylinder power plant. The new car is being introduced here by Leon Ames, who is celebrating his grand opening at 1840 S. Pacific Coast Hwy., Redondo Beach, April 17.

Maverick Newest Car From Ford

Leon Ames Ford, 1840 S. Pacific Coast Hwy., Redondo Beach, will introduce the long awaited 1970 Maverick, Ford Motor Co.'s new small car, April 17.

The car, priced at \$1,995, is a two-door sedan of modified fast-back design with a hint of an air spoiler or "ducktail" at the rear. Designed to carry a family of four with adequate luggage, it is powered by a six-cylinder engine in either of two sizes, 170 or 200 cubic inches.

In normal city-suburban driving, Maverick can be expected to deliver 22.5 miles per gallon of gasoline.

JOHN NAUGHTON, Ford Motor Co. vice president and Ford Division general manager, said Maverick is "the greatest automotive value ever offered in terms of price, upkeep, and features included at no extra cost." Planned to be economical in

purchase price, operating costs, and maintenance, Maverick offers a longer, lower, wider body that the principal import, yet turns in a tighter radius for easy handling and parking.

TRANSMISSION choices include a fully synchronized three-speed manual, a three-speed automatic with an optional shift-for-yourself feature; and for the first time, a new semi-automatic transmission.

Cheaper than the automatic and clutchless, the new semi-

automatic feature permits a change of gears with a single movement of the hand lever. Hitchcock of Leon Ames Ford said. Manufacturer's suggested retail price for Maverick is \$1,995.

Volleball For Adults Offered

The Torrance Recreation Department announces that adult co-ed volleyball teams will meet Tuesdays and Wednesdays during April.

Two-man co-ed teams will play Tuesdays from 7 to 10 p.m. Play for these teams will be on an intermediate to advanced levels.

Wednesday, from 7 to 10 p.m., intermediate play will begin for six-man teams. Instruction will also be given to beginners. All individuals interested in volleyball are invited to participate. They need not be on a team.

All teams will play in the South High School Boys Gym, 4801 Pacific Coast Hwy.

Normandale Sets Craft Classes

Women may now register for craft classes scheduled to begin in early April at Normandale Recreation Center, 22400 S. Hal-dale Ave.

Classes will be held every Thursday from 1 to 2:30 p.m. Projects include papier-mache, block printing, ribbon straw flowers, clay modeling, and other interesting craft ideas.

Political Activism Topic Of Extension Forum Here

Increased political activism in American society indicates an increase in loneliness, and a recent shift in attitudes toward alienation itself, says a social scientist who will speak in a UCLA Extension series here on "The Anatomy of Loneliness."

Political scientist Duane E. Smith, who makes those observations, is among specialists who will appear in the series of 10 Thursday sessions from 7:30 to 10 p.m. starting April 10 in Room 228, Music Building at North High School.

Dr. Smith will be joined by eight other scholars whose fields range from psychoanalysis to sociology, literature, and anthropology.

TRADITIONALLY, the American has valued alienation or separateness from society as "something to be attained, rather than avoided," Dr. Smith said. This is evident in historic figures like Thoreau and in such folk heroes as Tom Sawyer.

But in recent years alienation

"suddenly is transformed into a bad thing." And thus Americans have adopted an attitude which formerly was typically European, Dr. Smith said.

The political scientist sees political action as "one path of escape from loneliness."

HISTORICALLY, Dr. Smith said, Americans "have been satisfied on the whole with a rather low level of political activity."

Current student activists "can be viewed in terms of seeking through political life compensation for what they feel to be missing in their private life." But ironically, the most alienated group of all — the hippies — are uninterested in political action, Dr. Smith added.

Another political scientist in the series, E. Victor Wolfenstein will speak at the opening session April 10 on "That Long, Lonesome Road."

PSYCHOLOGISTS Rudolf Ekstein and Charlotte Buhler will

be the next lecturers, describing individual loneliness in childhood, adolescence and maturity.

Enrollment in the series is now open. Single admissions will be available at the door as space permits. The lecture series also may be attended as a credit course in social sciences.

MODERN INVESTIGATION & SECURITY PATROL, INC.

1013 W. CARSON, TORRANCE

There's reason to feel secure when your well-saved money is steadily earning 5% interest in the plan that suits you best. At Bank of America you can choose from several basic savings plans, any one of which may be just right for you. Take a look at these:

5% Investors Passbook Account
\$500 will get this one started, and additional deposits can be made in amounts of \$100 or more. Your 5% interest is compounded quarterly. You can make a withdrawal quarterly, too. Or leave your funds where they are to accumulate.

5% Time Certificate of Deposit
Bank of America Time Certificates also earn 5% annual interest. These certificates are issued for \$1000 or more. They mature every 6 months. The 5% interest can be credited automatically to your savings account. Then your total annual rate of return can exceed 5%.

5% Five Year Guaranteed Certificate of Deposit
This is the long term interest guarantee plan.

Certificates are issued for a minimum of \$1000. Five year guaranteed interest at 5% per year paid or credited quarterly. You may withdraw the full amount at the end of any quarter without loss of interest to that date.

Regular 4% Savings Account
This is still the favorite plan of many because it's convenient, flexible, and at 4% it delivers the maximum interest allowed by law for this type of savings plan. You are free to put money in—any amount. And take it out—all or any part of it—at any time. Deposits made by the tenth of each quarter earn interest from the first of that month. These are just four of our Personal Choice Savings plans to help your money grow with absolute certainty, and with full interest all the way. So why don't you stop by your local Bank of America branch and take your choice.
